

Community - Based Survey

- How often do you work with victims of domestic violence or children who come from homes where there is domestic violence? What kind of information/questions are they asking of you?

- How does the system work right now to support victims of domestic violence?

- What are the greatest needs of battered women in our community right now?

- Describe a specific domestic violence case where you felt there was a lot of potential danger? (**Don't use real names.**)

- What made it seem dangerous? Dangerous to whom (battered parent, children)?

- What data sources are available for the information discussed in the above questions?

- What kind of training have you received surrounding domestic violence?

- Do you have any other comments regarding domestic violence services in our community?

- What personal frustrations do you encounter with these cases?

- What obstacles do you encounter when working with a victim of domestic violence?

- How do you view the community's attitude towards domestic violence?

- Where are gaps in services?
