

Freeborn County Mental Health Center has 2 registered nurses on staff who work closely with the providers in the outpatient clinic setting. Nurses are here to assist patients in communicating with their provider when needed. The nurses help educate patients and families regarding symptoms of their diagnosis, medications, and potential side effects. They are also available to assist with medication setups and injections for patients at the clinic. Nursing staff is available Monday through Friday 8 a.m. to 5 p.m.
